PLACEMENT AND PREREQUISITES FOR MATH 101, 106, 108, 109, 110, 111, 120, 125, 139, 140, 150, 282

Test scores below represent raw scores (number of correct answers).

There are 20 questions on each test.

For entry into…	Test 1 score is at least…	AND Test 2 score is at least…	AND Test 3 score is at least…	OR student has **C or better in…**
Math 101	<10	0		
Math 106 (get Math 108 credit)	12	8		**Student can finish the free online Prep for Math 106 in order to take Math 106
Math 108	12	12	0	
Math 109	12	16	0	Math 108/106
Math 110	12	0	0	
Math 111	12	16	0	
Math 120	12	0	0	
Math 125	12	8	0	**Student can finish the free online Prep for Math 106 in order to take Math 125
Math 139	12	16	0	Math 108/106
Math 140	12	16	0	Math 108/106
Math 141	12	16	0	Math 108/106
Math 282	12	16	0	Math 108/106
Math 150	12	16	15	Math 111
Math 221	12	16	15	Math 111

If a student earns D, F, or WF in the prerequisite course, the student MUST repeat the prerequisite course (and must meet placement requirements for that prerequisite). Entry into the next course by way of a placement test is not an option in this case.

In other words, a grade less than C in the prerequisite course trumps any placement score.

Note:

For many majors, Math 101 satisfies the math requirement and college algebra isn't required. However, if students are required to take College Algebra (106/108) , but don't place into College Algebra , they will be required to complete a free online "prep for Math 106" course prior to Jan. 10th (for spring) and Aug. 10th (for fall).   The prep course is self-paced (can take 10-30 hours depending on math level) and there are several ways to earn the mastery points required. The course for the fall opens June 1st – but students can enroll anytime prior to the end of July. However, students that don't enroll early, might not finish. The course for the spring opens Nov. 1st.   If completed by the deadline, a student will be allowed to take Math 106 (College Algebra Enhanced). If students do not finish by the deadline, they will need to repeat entire prep course during the next session it is offered prior to enrolling in Math 106.

PLEASE CONTACT MATHPLACEMENT@SIU.EDU IMMEDIATELY IF YOU WOULD LIKE TO TAKE COLLEGE ALGEBRA, BUT DIDN'T PLACE INTO IT.
